Prueba técnica – Playvox (Exploratory test)

Home Page

The screenshot shows the homepage of the Space Advisor website. At the top, there's a dark header bar with "Space Advisor" on the left and "LOG IN" on the right. Below the header is a large banner with a starry background. The banner features the text "SPACE & BEYOND" and "Customize your dream journey to space". It includes input fields for "Departing" and "Returning" dates, and dropdown menus for "Adults (18+)" and "Children (0-7)". A yellow button labeled "SELECT DESTINATION" is centered at the bottom of the banner. Below the banner, the text "YOUR NEXT DESTINATION" is displayed in bold capital letters. Underneath this, it says "1 traveler". To the left is a dropdown menu labeled "Launch" and to the right is another labeled "Planet color". A horizontal price slider ranges from "\$100" to "\$1800" with a purple dot indicating the current price level. Below the slider are three destination options: "Madan" (image of a satellite over Earth), "Shenji" (image of the Moon), and "Tongli" (image of Earth from space showing city lights).

Inestability in checkout when change phone number field

The screenshot shows a user interface for a service. At the top left, there is a text input field containing the number "345678904". Below it, a red-bordered error message box displays the text "Enter a valid 419 phone number." To the right, a large button labeled "\$346.68" indicates a total amount. Below this button is a "PAY NOW" button. In the center, there is a large rectangular area with a cloud icon and the text "Drag and drop your health insurance" above "Or click to upload". The bottom of the page features a browser's developer tools interface, specifically the "Elements" tab, which is currently selected. A red box highlights an error message in the console log: "Uncaught Error: Unknown country code: 419". The console also lists several stack frames related to the error. The browser's address bar shows "top" and includes a "Filter" dropdown.
